Registration for the domain shown below has been completed.
Please let us know if any changes are required.

The new information will not be visible via WHOIS until the
next business day.

Before this information is released to the Internet (normally
accomplished via root server file updates on Mon, Wed, and Fri
afternoons about 17:00 Eastern time) we will check to see that the
primary and secondary name servers are reachable and contain the
appropriate SOA and NS resource records.

If your name servers are not properly configured, we will place your
registration on hold until we hear from you. When you are ready to
have the domain released to the network, contact us at any of
the addresses below.

Registering a domain name does not confer any legal rights to that
name and any disputes between parties over the rights to use a
particular name are to be settled between the contending parties
using normal legal methods (See RFC 1591).
